DAY 1 | 26 SEPTEMBER 2026

09:45-10:15 **Welcome Coffee & Tea**		
10:15-10:30	Conference Opening. E Morawiec (MD), J Delemazure (MD)	Moderation: P. Spronk/ C Hickmann Opazo
10:30-11:00	Weaning: evidence-based practice (HFO, NIV, trach management…). G Hernandez (MD)	
11:00-11:30	SLT interactive clinical case. AL Sutt (SLT)	
11:30-12:00	Caring for families. N Kentish Barnes	
12:00-14:00	**Lunch Break** **12:30-13:15 Poster presentation**	

DAY 1 | 26 SEPTEMBER 2026

14:00-15:00	Session 1 Auditorium Mod: Y Combret	Session 2 room 108 Mod: C Botteau/ K Tantam	Workshops at the same time (registration required)
	Meet the expert: tracheostomy management Clinical case: J. Delemazure Experts: G. Hernandez (MD), G Jones (SLT), C Medrinal (PT)	**Surviving ICU with significant body changes** • Functional outsomes after Purpura Fulminans and Necrotizing Skin Infections (T. Urbina, MD) • Amputees in the ICU: things you should know (G Besson, MD) • Supporting patients through change in body image (S Castellano, psychologist)	• **#1 Occupational Therapy (rooms 112+114)** • **#2 Tracheostomy and Mechanical In/Exsufflator (rooms 107+109)** • **#3 Ultrasound (room 105)** *See below for workshop details*
15:00-15:15	**Coffee break**		
15:15-16:15	**Session 3 Auditorium** **Mod: I Von Iperen / G Fossat**	**Session 4 room 108** **Mod: F Dabas/ C Medrinal**	**Workshops at the same time** **(registration required)**
	Early Mobilisation in the ICU: a multidiciplinary interactive case discussion P. Nydhal (N), P Spronk (MD), J Sommers (PT)	**Secretion management** • Cough augmentation (T Andersen, PT) • Naso pharyngeal/oro pharyngeal suction (A Lewko, PT) • Dealing with severe dysphagia (AL Sutt, SLT)	• **#4 Mobilisation on ECMO (hall 102)** • **#5 Experience Dyspnea (room 106)** • **#6 Neuro Muscular Electrical Stimulation and Inspiratory Muscle Training (rooms 107+109)** *See below for workshop details*

DAY 1 | 26 SEPTEMBER 2026

16:15- 16:30	**Short Break**	
16:30-17:00	Occupational therapy in the ICU. J Bruce (OT)	Mod: E Morawiec /A. Demoule
17:00-17:30	Caring for our patients, Caring for our planet. M Lecronier (MD)	
17:30-18:15	Dyspnea T Similowski (MDPhD)	

The 10th European Conference on Weaning and Rehabilitation in Critically Ill Patients is supported by

SKR Société de Kinésithérapie de Réanimation

DIVI AKADEMIE

DAY 2 | 27 SEPTEMBER 2026

8:30-09:00	**Welcome Coffee & Tea**	
09:00-09:30	Remote Rehabilitation: iRehab study. B O'Neill (PT)	Mod: J Delemazure/ P Azevedo
09:30-10:00	Post ICU follow up in children. D Micaelli (N)	
10:00-10:30	Humanizing Delirium Care. P Nydhal (N)	
10:30-11:00	Thirst in the ICU. P Spronk (MD)	
11:00-11:30	**Coffee Break**	

DAY 2 | 27 SEPTEMBER 2026

11:30-12:30	Session 5 Auditorium Mod: AS Debue/E Morawiec	Session 6 room 108 Mod: R Gosselink/ C Botteau	Workshops at the same time (registration required)
	Are you aware of these long lasting ICU complications ? • Brachial plexus injuries and other upper limb ICU related neuropathies. (A Cambon, MD) • Laryngo tracheal complications (G Jones, SLT) • Tapia Syndrome (D Madder, patient)	**Weaning** • The diaphragm (M Dres, MD) • Can we predict weaning through respiratory muscle assesment ? (M Von Hollebeke, PT) • SBT: does the method matter ? (G Fossat, PT)	• **#7 Mobilisation on ECMO (Hall 102)** • **#8 Experience Dyspnea (room 106)** • **# 11 Tracheostomy and Mechanical In/Exsufflator (rooms 107 and 109)**
12:30-14:30	**Lunch Break** **13:00-13:45 Poster presentations**		
14:30-15:30	**Session 7 auditorium** **Mod F Dabbas/ G Jones**	**Session 8 room 108** **Mod T Andersen / P Spronk**	**Workshops at the same time** **(registration required)**
	Neuro Critical Care • Mobilization in Neuro Critical Care (A Foudhaili, PT) • Tracheostomy management and decanulation in neuro critical care (T Gallice, PT) • Facial Palsy in the ICU: implication for patient care and rehabilitation (P Gatignol, SLT)	**My favourite recents/most anticipated papers on weaning and rehab** • Nurse edition (P. Nydhal) • Physio edition (Y Combret) • SLT edition (AL Sutt)	• **#9 Neuro Muscular Electrical Stimulation and Inspiratory Muscle Training (rooms 107 and 109)** • **#10 Occupational Therapy (rooms 112 and 114)** • **#12Ultrasound (room 105)**

DAY 2 | 27 SEPTEMBER 2026

15:30-15:40	**Short Break**
15:30-16:00	Best posters: oral communication C. Hickmann Opazo (PT)
16:00-16:15	Conference closing and future perspectives

WORKSHOPS

Participation for one workshop is included in the price of the conference
Each workshop will take place twice during the conference (on Saturday and Sunday)
Thematic sessions also occur at the same time: check the program!
Please select the workshop and the time you will attend at the time of registration

Workshop 1+10 (SAT 26 14:00 and SUN 27 14:30) Rooms 112 and 114	**Workshop 2+11 (SAT 26 14:00 and SUN 27 11:30) Room 107 and 109**	**Workshop 3+12 (SAT 26 14:00 and SUN 27 14:30) Room 105**
Occupational Therapy *This workshop is divided into two 30 min sessions:* • Management of ICU oedema in the upper limb (J Bruce OT) • Virtual Reality-ICU: eye-hand coordination (D Tzoumi OT)	**Techniques in Rehab 1** *This workshop is divided into two 30 min sessions:* • Tracheostomy (T Gallice, PT) • Mechanical in/exsufflation (T Andersen, PT)	**Ultrasound** *This workshop is divided into two 30 min sessions:* • Diaphragm assessment (M Van Hollebeke D Poddighe, PT) • Swallowing assessment (C Diaz PT)
Workshop 4+7 (SAT 26 15:15 and SUN 27 11:30) Hall 102	**Workshop 5+8 (SAT 26 15:15 and SUN 27 11:30) Room 106**	**Workshop 6+9 (SAT 26 15:15 and SUN 27 14:30) Room 107 and 109**
Mobilization on ECMO Mobilizing a patient on ECMO? No problem! Overcome anxiety and technical issues in this simulation workshop. (R Van Der Stoep, PT; K Bokhoven, R Brouwer)	**Experience Dyspnea** Dyspnea is one of the most distressing symptoms in critical illness — yet few caregivers have ever experienced it. This interactive and immersive session blends physiology, epidemiology, and lived experience to transform how you understand and manage breathlessness in ICU and post ICUpatients. (M Decavele MD)	**Techniques in Rehab 2** *This workshop is divided into two 30 min sessions:* • NeuroMuscular Electrical Stimulation (I Patsaki L Karatzanos, PT) • Inspiratory Muscle Training (B Clerckx, D Langer PT)
